PROJECTS

Digi-Buy (E-Commerce Platform) | GitHub | Live Demo　　01/2025 – 04/2025
- Developed a responsive e-commerce platform using React.js, Redux, and Tailwind CSS, Featuring product listings and secure payment integration via Razor pay. Implemented user authentication, cart management, and admin dashboard for streamlined operations.

Portfolio Website | GitHub | Live Demo　　12/2024 – 01/2025
- Designed and developed a responsive personal portfolio using React.js with animations (Framer Motion/GSAP). Showcased projects with case studies, skills section, and contact form with email integration.

Placement cell | GitHub | Live Demo　　01/2022 – 03/2022
Html, CSS, JavaScript, Java, MySQL.
- The objective of our project is to connect our college students to all the alumni who are working in different part of world. It will be easier to find out them via our website. It will create a platform for many of us to get in touch to them. It's like Mini-LinkedIn. But only focused on our college.

WORK EXPERIENCE
